

Speakerbus

Meet CADENCE It's secure, scalable and built for traders

A digital cloud communications platform that lets your trading teams perform at their best from anywhere.

Our cloud, your cloud, multi-cloud

Real-time digital trading communications
you can count on, no matter what.

With CADENCE, modernise your trader voice
collaboration, connectivity and compliance.

Ensure your critical voice services are
always up, running and accessible, making
your business more agile while reducing
complexity and costs.

Trader Voice Connectivity

Connecting institutional financial services with a range of resilient, high performance services.

CADENCE COMMUNITY offers a full range of next-generation and legacy voice services for Inter-Firm communications.

Includes private wires, hoot & holler, and intercom services.

Connect circuits with peace of mind backed by our global support.
